

Are Your Clients Staying Compliant with ACA Statewide Requirements?

Although the Individual Mandate under the Patient Protection and Affordable Care Act (ACA) was repealed in 2019, states are implementing their own Individual Mandates to require state residents to have health coverage or pay a tax penalty. California, New Jersey, Rhode Island, Vermont, Massachusetts, and the District of Columbia have already adopted statewide Individual Mandates. Additional states are expected to follow suit.

As a result of these regulations, Employers must meet specific reporting requirements for their employees who reside in these states. Navigating these ever-changing, state-specific regulations can be complex. MMA MarketLink can help!

MarketLink's enhanced ACA Services now includes mandated state-level ACA reporting. Our tools, support, and guidance can help ease your clients' burden and help them stay compliant with changing state regulations.
